

LASTING **COMFORT.**
FOR LASTING HEALTH.

THE BENEFITS OF STABLECOMFORT™

HEALTH & COMFORT

- + Reduces or eliminates stocking up and hock sores.
- + Comfort to ensure your horse obtains needed REM sleep.
- + Reduces risk of musculoskeletal disorders (MSD).*
- + Less ammonia in stalls.
- + Reduces dust levels by 37%.
- + Thermal barrier for arthritic joints.

SAVES TIME, MONEY & ENERGY

- + Use as little as 2 forkfuls of shavings per day.
- + 3 year warranty.
- + Can be used with any type of bedding.
- + Comfort is equal to at least 6 inches of bedding.
- + Cuts stall cleaning time by at least 50% (to as little as 2-3 minutes).
- + No more moving & cleaning solid rubber mats.
- + Easy to disinfect between horses.

INNOVATIVE DESIGN

- + Promat is the leader in stall flooring for nearly 20 years.
- + 1 piece top cover to fit any size stall. If you can dream it, we can make it.
- + Can be installed over concrete or screening bases.
- + Non-abrasive & non-slip top cover reduces/eliminates hock sores and slipping even with snow packed or wet hooves.

*musculoskeletal disorders are injuries or pain in the body's joints, ligaments, muscles, nerves, tendons & structures that support limbs, neck & back.

*PROMAT's specially engineered stable**comfort**™ flooring is your revolutionary answer for equine comfort.*

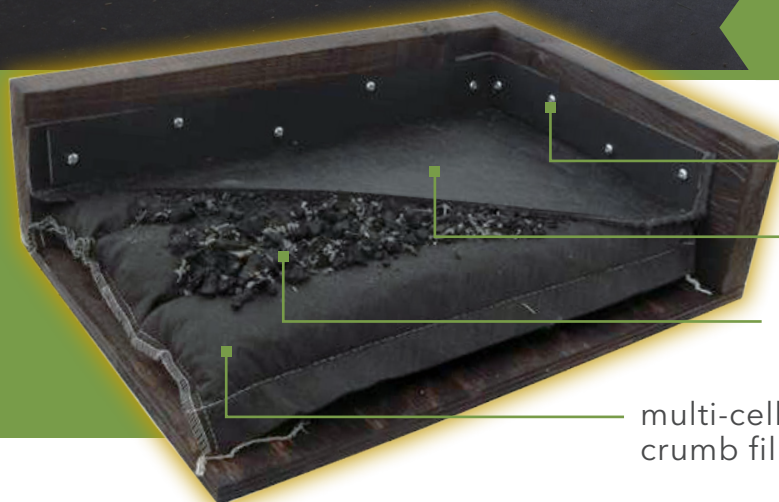

Stable**comfort**™ is a patented, multi-celled mattress that is equivalent to at least 6 inches of bedding. The mattresses are placed wall-to-wall in the stall, topped with a durable cover and securely fastened to the walls for a one-piece, full-coverage flooring system.

Give your horse the
ultimate in **stall comfort**

Give yourself incredible
time and cost savings

STABLECOMFORT™ DESIGN

heavy-duty plastic fastening strips

rubber-coated waterproof top cover

uniformly sized rubber crumb

multi-celled, rubber
crumb filled mattress

THE STABLEWALL ADDITION

Stable**wall** is the perfect addition to any horse stall and makes an effective duo when combined with Stable**comfort**™. Stable**wall** is comprised of pre-engineered foam panels topped with our durable Stable**comfort**™ cover, which is then fastened directly to the wall for a one-piece padded wall system.

STABLEWALL APPLICATIONS:

- + Horse stall walls
- + Isolation barns
- + Rehabilitation stalls
- + Foaling stalls
- + Breeding stalls
- + Horse trailers

STABLEWALL BENEFITS:

- + Prevents injuries to joints
- + Can be washed and disinfected
- + Durable waterproof top cover
- + Prevents casting injuries
- + Thermal barrier

WHAT STABLECOMFORT™ CUSTOMERS ARE SAYING

“I have had my Stablecomfort™ for 7 years, and my horses walk out to pasture completely sound every day, I believe in large part to the comfort built into Stablecomfort™.”

FAITH MCDONALD, Griffin, SK

“The horses love it because it is comfortable, I love it because it looks perfect (even after 8 years). We bed the stalls only as needed and use far less shavings than I ever could have imagined, and it takes less time to clean stalls when using less bedding.”

ANNE DOERGE
Little Rock, AR

“After much research, we decided to go with the Stablecomfort™ system. Wow what a difference!! The horses are more rested, they don't stock up from being in their stalls and are pretty much pain free, not to mention, mucking stalls is a breeze.”

STACEY RYDER, DIRECTOR, Youngsville NC
Reins From Above Therapeutic Riding Center, Inc.

“The StableComfort stall floor system has put the finishing touch to our goal of the perfect stabling environment for our horses. They rest better and seem to be much more relaxed and comfortable. I notice a better attitude due to a relief from the hard flooring that is common in most stabling areas. Very easy to clean and maintain with less bedding material. I only wish they were portable.”

CRAIG JOHNSON, Gainesville TX

\$1 Million Dollar Rider - 15 Time World Champion - 2 Time NRHA Futurity Champion - International Gold Team Member in Spain

“My top event horses are more relaxed and comfortable with the cushioning provided by Stablecomfort™ stall flooring. This is a first-class product which is a great addition to my yard.”

MARY KING, Salcombe Regis, Devon

3x Olympic Medalist - 3x World Equestrian Games Medalist - 4x Gold Medalist at the European Eventing Championships - 4x British Open Champion

“I've tried a lot of stable floor products over the years. Finally I have a Mattress that does what it's supposed to do. Stablecomfort™ is installed in one piece which means we have no maintenance. My horses are safe and happy in their stable, and my muck heap is much more manageable.”

NICK SKELTON, Shrewley, Warwickshire, UK

Olympic Medalist - 5x World Championship Medalist - 9x European Championship Medalist

“A number of these horses were on complete box rest, and so the Stablecomfort™ provided the comfortable, durable, non-slip footing required. I would recommend the Stablecomfort™ system as a good option for people rehabilitating horses but also as a good flooring for day-to-day stable use.”

TESSA MUIR B.V.Sc (Hons)

Ascot Vale Equine Clinic - Victoria, Australia

“We have had the Stablecomfort™ flooring system in our main intensive care stall for two years. It has been very impressive regarding its durability, serviceability and ease of care. I would have no hesitation in using this flooring in any new barn.”

**JAMES R. VASEY BVSc (HONS) DIP. VET SURG
FACVSc, Registered Specialist in Equine Surgery**
Goulburn Valley Equine Hospital - Victoria, Australia
